

# Geothermal Power

*What is geothermal power? See if you can find out. Good luck!*

*Geothermal energy is a renewable energy source because the heat is continuously produced inside the earth.*

## Geothermal Power

- ◇ *Geothermal power is heat pushing up from the ground.*
- ◇ *The word geothermal comes from the Greek word Earth (geo) and heat (thermos)*
- ◇ *Humans have enjoyed geothermal energy in the form of hot springs for thousands of years.*
- ◇ *All of the central heating in Iceland comes from geothermal eruptions.*
- ◇ *In Iceland there is a place called the blue lagoon that is so hot from geothermal eruptions that sometimes you can't touch it!*

*This is the Blue Lagoon!*

*This is the stages of geothermal power in the form of eruptions.*
