

# Solar power

Solar source of energy. Without it there will be no life. Solar energy is considered as a source of energy for many years because of the vast power is energy from the sun. Solar is the Latin word for sun and it 's a powerful amounts

Electric utilities are trying photovoltaics, a process by which solar energy is converted directly to electricity. Electricity can be produced directly from solar energy using photovoltaic devices or indirectly from steam generators using solar thermal collectors to heat a working fluid.
